EURO mini

might in miniature

10 EOL inputs (zones)

2x EN 50131-1 Grade 2x

EuroMini 10V6.e
Time   00:00 c

10 EoL inputs | Up to 7 programmable outputs | On-board diagnostics | Intelligent set | 1A Power supply

The EURO **mini** is the latest addition to the EURO-MERiDIAN family of control panels which have been designed to meet the demands of end users and installers facing the challenges of the 21st century.

The EURO **mini** is the ideal solution for your EN 50131-1 Grade 2x domestic and small commercial installations.

2x EN 50131-1 Grade 2x

The EURO mini, 10 input (zone) control panel offers the reassurance and peace of mind for protecting your customer's property whilst meeting all the relevant standards.

Programming of the EURO mini is the same as the EURO MERiDIAN panels so this is the perfect alternative for your smaller installations.

The slim contemporary LCD keypad with full English text operates the EURO mini and up to 4 of these keypads can be connected to a system.

Castle Care-Tech Limited is a UK based designer of high technology control equipment for intruder alarms and as a leading innovator, Castle has won numerous awards for products and innovation in recent years.

Specification:

End Station inputs	10 EoL or 9 Double Pole
User codes	32
Programmable outputs	7
